BEYOND THE CLASSROOM, SOUTH PASADENA

FEES

June 1-July 2 (9am to 3pm)	w/ Morning Care (8am to 9am)	w/ After Care (3-5pm)
1,400 (\$1,260*)	200/month (\$180*)	400/ month (\$260*)

Currently enrolled campers will receive a 10% discount on monthly camp tuition.

July 5-July 30 (9am to 3pm)	w/ Morning Care (8am to 9am)	w/ After Care (3-5pm)
1,400 (\$1,260*)	200/month (\$180*)	400/ month (\$260*)

Currently enrolled campers will receive a 10% discount on monthly camp tuition.

BEYOND THE CLASSROOM, SOUTH PASADENA

Week 1: 6/7-6/11

THE ARTS

Our campers will have the space to nurture their visual and performing creativity through the art of puppetry and other forms of art! One of Bob Baker's highly trained puppeteers will begin the week with an outdoor puppet show.

Special Guest: Bob Baker Marionette Theater

Week 6: (7/12-7/16)

PROFESSOR EGGHEAD DETECTIVE CAMP

There's a mystery to solve! Someone has broken into the Academy, and we need a few good detectives to help track them down! Campers will become super sleuths as they use science to solve all types of mysteries while trying to crack the case. They'll test fiber samples and dust for fingerprints, analyze some blood samples (fake of course) and experience all types of awesome science demonstrations by their Professor. By the end of the week, campers will become real super sleuths!

Week 2: 6/14-6/18

CARNIVAL WEEK

Step right up and see our camp transform into a carnival! With a variety of traditional carnival events, we hope to inspire our campers to create their own games and entertainment. Surprise carnival games onsite!

Week 7: 7/19-7/23

PROFESSOR EGGHEAD ROCKET CAMP

Get ready to strap in and blast off with Professor Egghead Science Academy at ROCKET CAMP! Every day brings a new challenge as we discover the science behind rockets, planes, and everything else soaring through the sky. Eggheads will create, build, and test different types of flying machines like helicopters, rockets, and planes. From bottle rockets soaring through the air, parachutes safely floating back to earth, and chemical reactions displaying how these awesome machines work. At the end of the week, campers will earn their wings, and graduate from Egghead Rocket Camp, ready to take to the skies!

Week 3: 6/21-6/25

THE WORLD OF REPTILES

They are not furry and soft cuddly animals but they are important creatures that make up the animal kingdom. Our campers will develop a greater awareness and appreciation of reptiles, while replacing fallacy with fact, and fear with understanding. A deeper respect for animals will surely develop by the end of the week.

Special Guest: Thors Reptile Family

Week 8: 7/26-8/30

LEGO ENGINEERING: MEGA MACHINE CAMP

Think you've got what it takes to be an Egghead Machine Engineer?! Using LEGO™, students will design and build real mega machines like spinning windmills, lifting cranes, elevators, cars, and way more. All week we'll be using wheels, bands, gears, pulleys, and tons of other cool specialty Lego pieces to build our Machines, and then after the building phase is complete we'll put them to the test. That means we'll try to break 'em, blow them over, and put weight on them. If you pass the test, you pass the challenge! By the end of the week, campers will become real LEGO Engineering Masters!

Week 4: 6/28-7/2

SCHOOL OF INTERNATIONAL CULINARY ARTS

Bonjour! Hola! We will celebrate cultural diversity and eat around the world as we learn to make and taste simple dishes from various parts of the world.

Special Guest: Junior Chef University

Week 5: 7/5-7/9

PROFESSOR EGGHEAD EXPLORER CAMP

Lace up your boots, grab a compass, and buckle up for a week of awesome adventure science with Professor Egghead! All week at camp, Eggheads will learn what it means to be Extreme Explorers as they dig for fossils, make tar pits that bubble, clean up oil spills, race magnetic bumper cars, and make snow! Each day at camp, Eggheads will take home their experiments, and by the end they'll be true Extreme Explorers. Caution: Fun Guaranteed!
